

I would like to inform you that K-LOVE provides good, clean music for this community. It provides music and programming that can be listened to by all ages of listeners. There is no worry about the topics in the broadcasts or rude comments or material made on these broadcasts. It provides positive and encouraging music and helps people cope with the stress of their days with the programming they broadcast. If this station were not on the air, the community would be deprived of a message of love and encouragement during their day when they are feeling down. This station shows the community that love, hard work, accepting responsibility for one's actions are values to include in our daily life. This helps provide a clean and safe place for our children to listen to. Without this station, the community would not have an uplifting music provider.
